General

- MLS #s for Steamboat listings from the old system will have an "S" at the beginning. To search by MLS #, be sure to add an "S" in front of the original MLS #. Steamboat listings newly entered in Matrix will have a randomly-generated MLS #, just like any other REcolorado listings.
- DOM on existing listings will be recalculated based on REcolorado calculations. CDOM will be populated with the recalculated DOM value.
- The following information is being moved from Steamboat Paragon to Matrix:
  - All listings and associated photos and supplements
  - Price and status changes in listing history
    Note: Because Listing history was created and stored in a very different method in Steamboat Paragon, customers may notice some differences when viewing history in Matrix.
  - Contact information (name, email, etc.).
    Note: The Paragon contact must have at least the first name, last name, and email to be imported to Matrix
- The following information is not being moved from Paragon to Matrix. Customers should archive this information during the parallel period.
  - CMAs
  - Saved search criteria
  - Activity associated with contacts, including sent emails
- Off-market Steamboat listings will follow the same photo and supplement retention policy as other REcolorado listings.

Required Fields

The following REcolorado required fields did not have an equivalent in Steamboat Paragon and must be completed before submitting a change to a listing.

- Confirm Internet Display & Syndication Settings
- Level information for Bedrooms and Bathrooms
- SqFt Above

The following fields allowed different data format in the Steamboat system than what we allow in Matrix, and may need to be updated or completed before changes can be submitted.

- Buyer Agency Compensation
- Transaction Broker Compensation
- Earnest Money

The following fields had equivalent(s) in Steamboat Paragon for many listings. If we were unable to map an equivalent value, these fields will need to be completed before submitting changes to the listing.

- Basement Size (Residential listings only)
- County
  Note: This field was not populated on many Steamboat listings. We are planning to backfill based on the address of the property, but there may be listings where County can't be determined by address.
- Parking Type and Spaces
- School District
- Seller Type
- SqFt Finished
- SqFt Total
- **Note**: Additional fields could be required depending on property type.

Fields Not Required on Existing Listings

The following fields may not be populated on Steamboat Paragon listings, and will NOT be required when editing an existing Steamboat listing. They will be required when entering a new listing into Matrix.

- Construction and Exterior Materials
- Cooling
- Earnest Check To
- Elementary/Middle/High School
  Note: Steamboat Paragon only included the School District. For School Districts that had only one Elementary, Middle, or High School, the school was populated on listings.
- Exclusions
- Financial Terms
- Fuel Type and Heating Type
- Lot Size Acres and Lot Size SqFt
- Roof
- Submitted Prospect
- Tax ID
- Year Built
- Zoning

The following fields did not have equivalent data from Steamboat Paragon listings, and have been populated with default values. Customers will need to make their own selections when entering a new listing into Matrix.

- Price Type defaulted to List Price for any "For Sale" listing, and to Rental Price for any "For Lease" listing.
- All Steamboat listings are being opted in to all syndication channels:
  - Denver Post
  - Homes.com
  - Homes & Land
  - Mountain Homes Illustrated
  - Realtor.com
  - Zillow
- Listing Syndication Date will be set to the date listings become available in RETS for Syndication partners.

Data Mapping

Many Steamboat Springs Paragon fields have a direct equivalent to an REcolorado field (for example, address fields, list price, most date fields, etc.). For other fields, use the list below to find which REcolorado fields/options should be used.

Steamboat Springs Paragon Field / Option	REcolorado Field / Option

FAQ

Will my contacts, saved searches, or CMAs be moved over to REcolorado Matrix?

- Contact information (name, email, etc.) from Steamboat Paragon is being moved over to REcolorado Matrix. Contacts must have at least a first name, last name, and email address to be moved to REcolorado Matrix.
- Saved searches are not being moved to REcolorado Matrix. During the parallel period (when you have access to both Paragon and Matrix), you should review your saved searches to identify which ones you need to recreate in Matrix.
- CMAs are not being moved to REcolorado Matrix. You should archive Paragon CMAs before cutover.

How will Steamboat listings appear on REcolorado.com?
The Steamboat listings in Matrix will be available on REcolorado.com, just like any other REcolorado listing.

Will photos have the REcolorado watermark on them?
Photos that were added in the Steamboat Paragon system will have any watermark that was applied in that system. Any photos for listings that are updated or added in REcolorado Matrix will have the REcolorado watermark.

Why do listing MLS #'s have an "S" at the beginning?

Some of the Steamboat Paragon listing numbers overlapped with older listing numbers in Matrix. Listings being imported from Steamboat Paragon will have an "S" at the beginning to prevent duplicate

listing numbers. Steamboat listings entered into Matrix will have randomly-generated MLS #'s, just like any other listing entered into Matrix.

Is property listing history available?

Yes, price and status changes made in Steamboat will display in listing history in Matrix. Any price or status changes that are made to listings in the REcolorado Matrix MLS system will also display in listing history.

Because Listing history was created and stored in a very different method in Steamboat Paragon customers may notice some differences when viewing history in Matrix.

Why does DOM or CDOM have different values in Matrix?

Listings imported from Steamboat Paragon had their DOM and CDOM recalculated according to REcolorado's DOM calculations, and will be updated based on REcolorado's DOM and CDOM calculations going forward.
