

Matrix Updates

Auto-Email Format Improvements

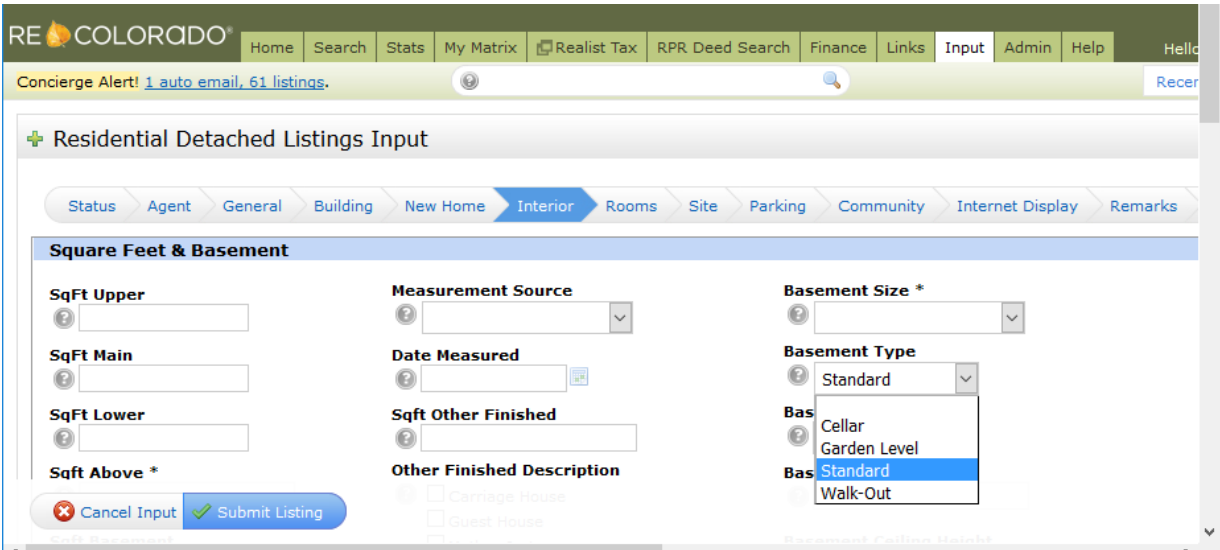

The Auto-Emails that display multiple listings now include direct links to the individual listing detail report on the client portal. A single click will now display the full details of the property clients are interested in viewing by clicking on the property photo, MLS # or Listing Details link.

Click to View All Listings will still open the Single Line Display in the Client Portal.

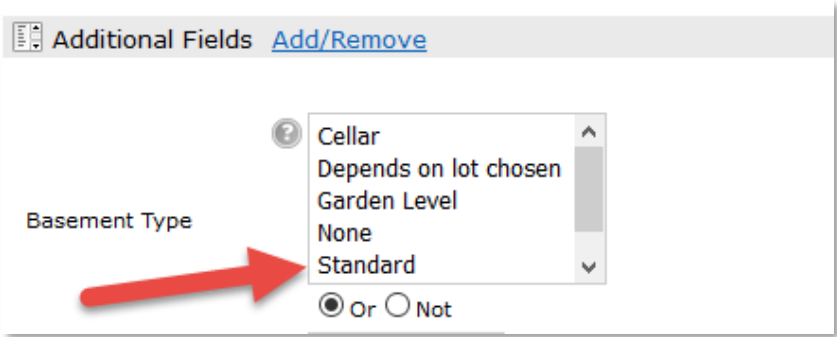

“Standard” Option in Basement Type

- When entering a Residential Attached, Residential Detached, Farm & Ranch, Rental, Income, or New Home Plans listings, a "Standard" option is now available under Basement Type (on the Interior Info tab).
- When searching in Residential, Income, or Cross Property, a "Standard" option is now available when using the Basement Type search field.

When searching, add “Basement Type” additional field

Other Matrix Updates:

Updated City List

- The city of Olney Springs has been added to the City list for input and search.
- The option of “Other” has been removed from the City list for input and search.
