

**CONNECT Updates**

Members that are Centralized Showing Service subscribers now have single-sign-on access to CSS directly from CONNECT. The CSS button is available in the Product Quick Access section.

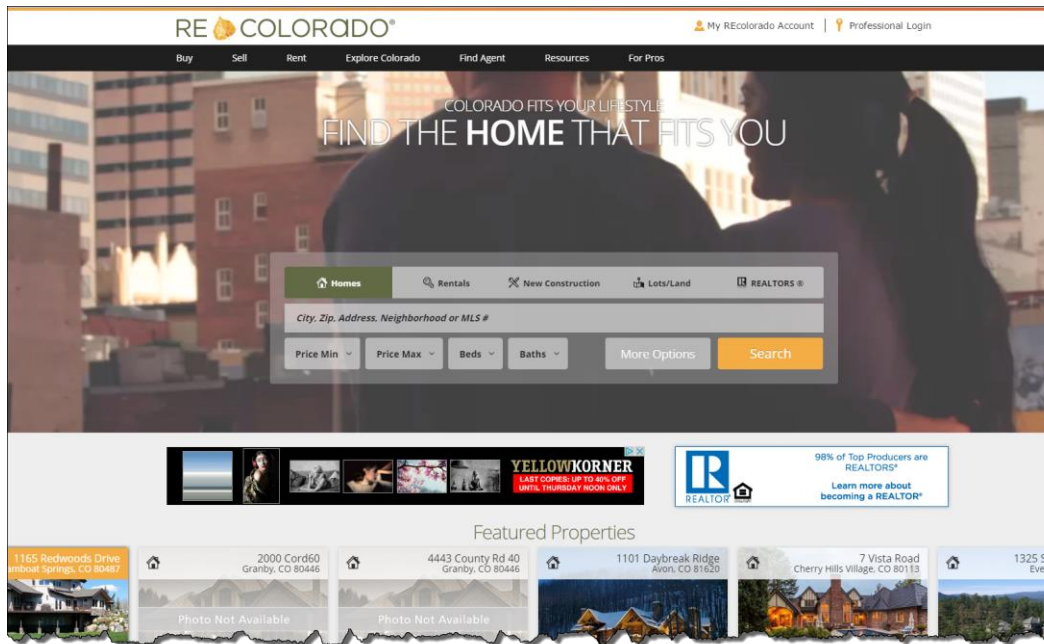

**REcolorado.com Updates**

My REcolorado Profile pages have been updated to include the Fair Housing logo. This image appears on all profile pages, below the REALTOR logo if they are a REALTOR, or below their photo if they are not.

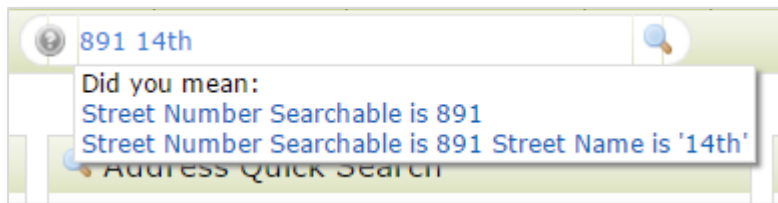

The REALTOR ad on the homepage has been updated to also include the Fair Housing logo.

## Matrix Updates

- The Fair Housing logo has been added to the footers of additional displays and PDF reports.
- Additional fields have been added to the Appraiser Export template to assist with Collateral Underwriter regulations: ½ Bath, ¾ Bath, Full Bath, Expiration Date, Latitude, Longitude, Parking Features, Horse Property Features, Ownership, and Status Contractual Search Date.  
**Note:** Expiration Date only displays for Expired status listings.
- Now, when entering search criteria in the Speedbar, you'll often see a dropdown menu with "Did you mean" options. Just pick the option that's correct to begin your search. This new functionality makes it easy to enter the most accurate search criteria so you get the right results.

- You can now allow another agent or office admin who has the same Head Office to impersonate you or work on behalf of you.
