

Understand Realist Quick Search and My Search

Realist provides two search options, *Quick Search* and *My Search*

"Quick Search" ¹ allows one to search by one of the following:

- Property Address** - enter as much address information as possible
- Owner Name** - enter name as *Last, First*
- MLS Listing Id** - find this number by searching the MLS
- Pin/Schedule** - number assigned by the county

Note: For the best results, only use one field at a time for Quick Searches

Note: To learn more about this search option please see [How to Conduct a Quick Search](#)

"My Search" ² allows one to:

Build and **Save** custom searches and designate geographic search boundaries by drawing on the map ³

Note: To learn more about this search option, please see [How to Generate a Customized My Search](#)
