

Generate a Custom Realist My Search Form for Future Use

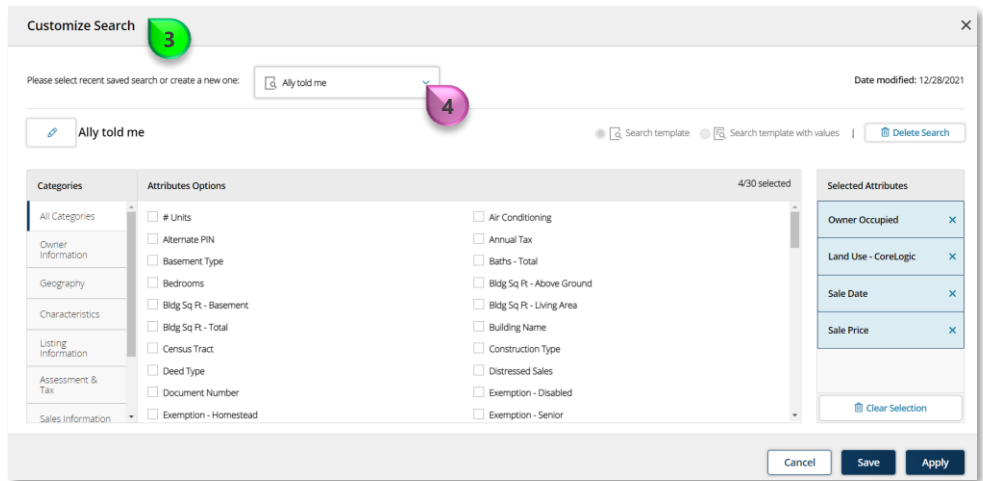

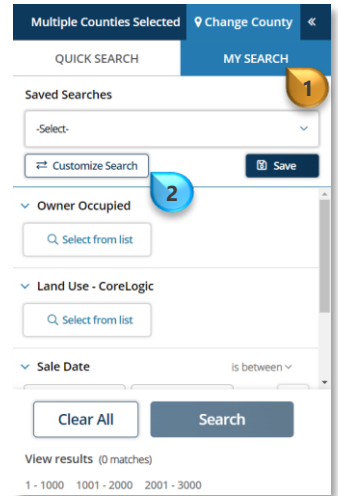

My Search allows users to customize search fields

Click **"My Search"** 

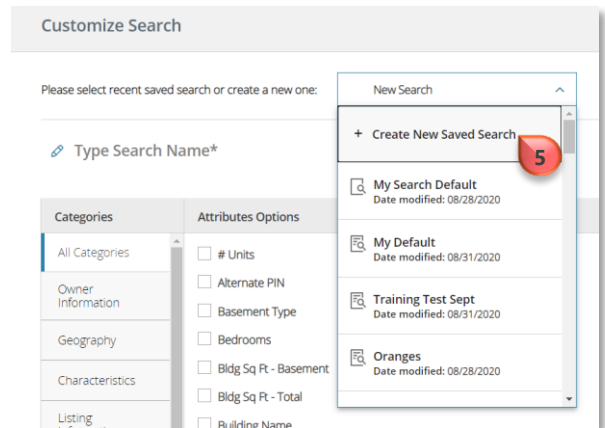

Click **"Customize Search"** 

A *Customize Search* screen will present 

Click the *expand collapse arrow* next to the **"Please select recent saved search or create a new one:"** field 

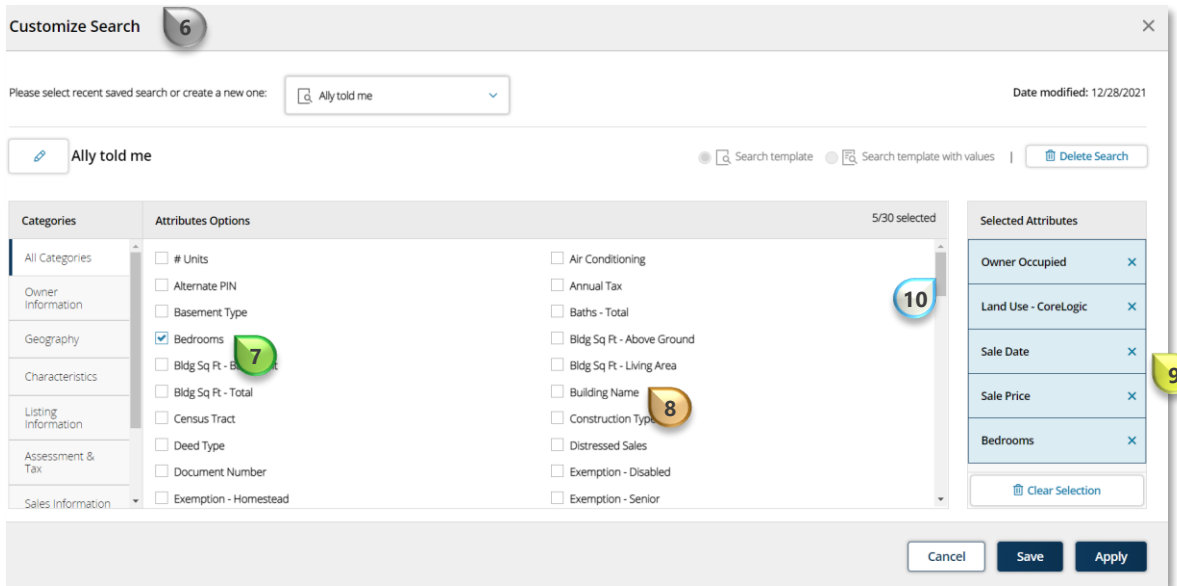

Select **"Create New Saved Search"** 

Generate a Custom Realist My Search Form for Future Use

Click in the **"Type Search Name*"** field and type the desired name for the search form 

The screenshot shows the 'Customize Search' dialog box. At the top, there is a search name field containing 'Ally told me' and a 'Date modified: 12/28/2021' label. Below this is a section for the search name with a 'Delete Search' button. The main area is divided into 'Categories' and 'Attributes Options'. The 'Attributes Options' section has a scroll bar and a '5/30 selected' indicator. The 'Selected Attributes' panel on the right shows the attributes that will be included in the search form. The 'Bedrooms' attribute is checked in the 'Attributes Options' section. The 'Selected Attributes' panel shows the following attributes: Owner Occupied, Land Use - CoreLogic, Sale Date, Sale Price, and Bedrooms. There are callout numbers 6, 7, 8, 9, and 10 pointing to various elements in the dialog.

Place a *checkmark* in the *checkbox* next to the search fields to be made available 

Remove *checkmarks* to hide attributes from view 

Note: Selected *attributes* will present in the *Selected Attributes* panel on the right 

Note: Use the *scroll bar* to reveal additional field options 

Click **"Save"** 

Note: For additional information please see **How to Access Realist Saved Searches and Forms**
