

Generate Mailing Labels in Realist

Realist generates mailing labels using search results

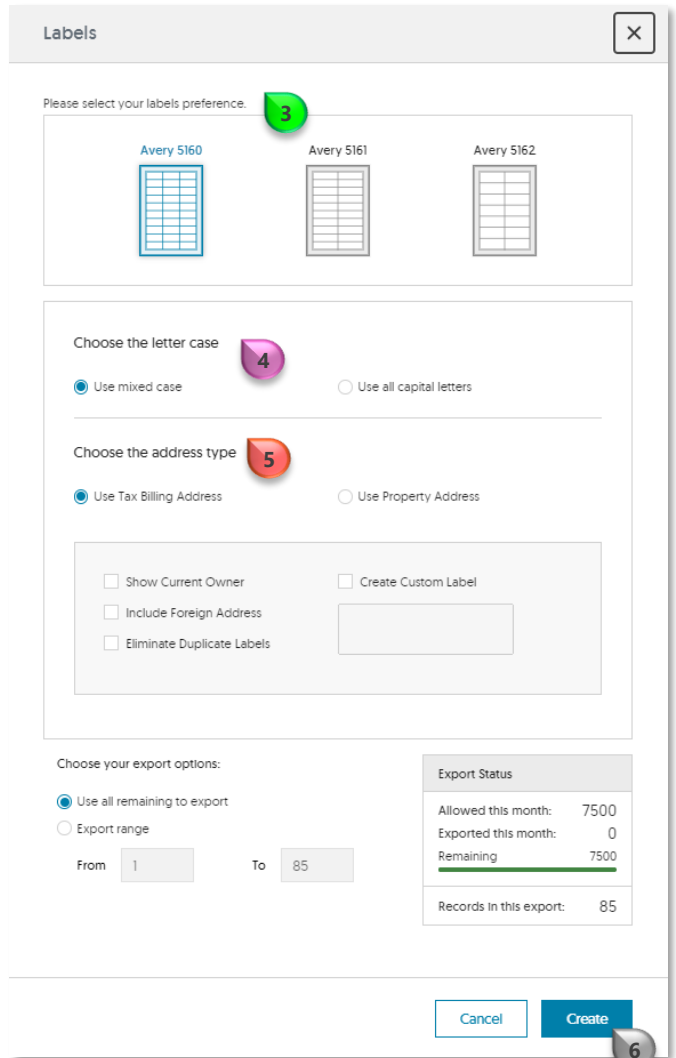

From Search Results

Verify desired properties are selected 1

Click "Labels" 2

Select the appropriate label preference 3

Select the desired case 4

Select how addresses are to be printed on the labels 5

"Use Tax Billing Address" - The Homeowners' primary address will be printed on the label

"Use the Property Address" - The property address will be printed on the label regardless of owner or non-owner occupied status.

Click **"Create"** 6

Generate Mailing Labels in Realist

Note: Users have a monthly export limit of 7,500 properties. This limit combines *mailing labels* and *exports*. For more information on how to export properties please see the respective export *How To's*

Mailing labels will present in the documentation software on your device

Follow the print process of the documentation software
