

Search Using the Wildcard

In *Matrix*, the *asterisk (*) wildcard* can be entered into free text fields in place of *unknown criteria*

Perform the Search

Type any known criteria into a field, and use an *asterisk (*)*  in place of the *unknown criteria*

Example: A street name contains "Oak," but the rest is unknown 

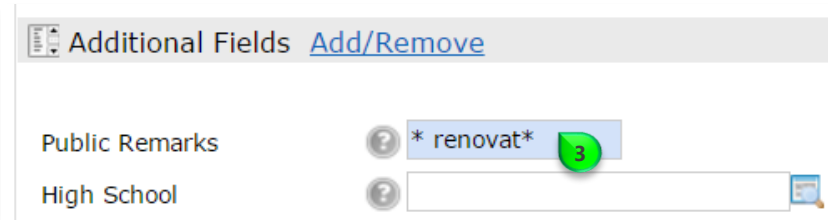

Street #	Street Dir	Street Name	Street Type	Unit #	Zip
<input type="text"/>	<input type="text" value="▼"/>	<input type="text" value="Oak*"/> 	<input type="text" value="▼"/>	<input type="text"/>	<input type="text"/>

Search results contain the known criteria (*Oak*), and any other criteria in place of the *asterisk* 

<input type="checkbox"/>			MLS #	Sts	Style	Address
<input type="checkbox"/>			7406881	A	2 Story	12795 Oak Cliff Way
<input type="checkbox"/>			2468598	A	2 Story	498 E Oak Hills Dr
<input type="checkbox"/>			1789410	A	2 Story	2434 Oak Vista Ct
<input type="checkbox"/>			8479339	A	3+ Story	87 Oak Way 
<input type="checkbox"/>			9284864	A	2 Story	2292 Oak Vista Ct
<input type="checkbox"/>			7345650	A	2 Story	2903 S Oak Way
<input type="checkbox"/>			1942077	A	2 Story	3052 S Oak Way

Example: Searching for listings that mention either "*renovation*" or "*renovated*" in the **Public Remarks** field

Place the *asterisk* before and after known criteria  (In this example, the known criteria is ***renovat***,* the first 7 letters in both *renovation* and *renovated*)

Additional Fields [Add/Remove](#)

Public Remarks  * renovat*
