

Select and Compare Geographies

Log into *REcolorado.com* using the “**Professionals Login**” 1

Click “**InfoSparks/FastStats**” 2

Note: The default geography for statistics is the entire *MLS*

To select a specific geography, click on the **Entire MLS** dropdown arrow 3

Select and Compare Geographies

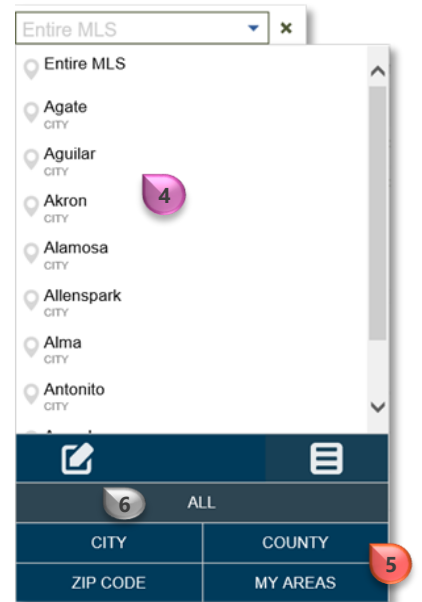

A menu presents

Select the *City of Interest* 4

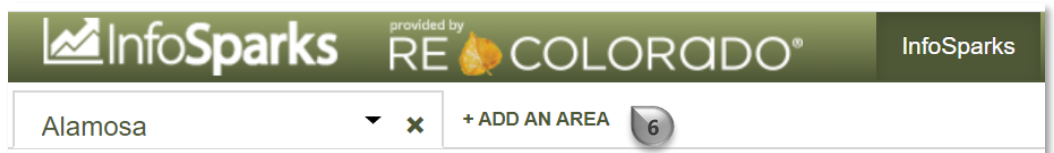

Or click on **"County," "Zip Code,"** or **"My Areas"** 5 and select the corresponding geography of interest

Note: The *dropdown menu* will default to **City**

Note: **"My Areas"** are geographies you define by drawing on a map, and saving the option. For more information please see **How to Create and Save My Areas**

To compare multiple *geographies*, click **" + ADD AN AREA "** 6 and select an additional geography. Up to four *geographies* can be added in this manner.

The graph will immediately populate the added geographies and a **Key** appears at the top of the report 7
