

Add a Custom Hot Sheet

Matrix allows for the creation of up to 10 custom Hot Sheets

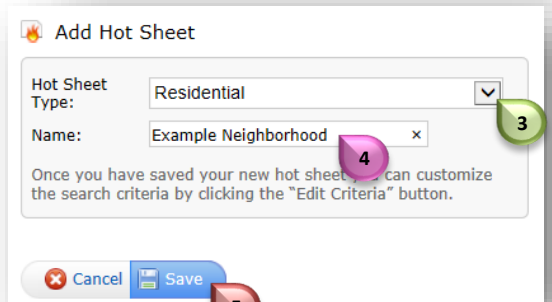

Click **“Customize”** on the Hot Sheet Widget 

Click **“Add”** 

Use the **dropdown** to select a Hot Sheet Type (Property Type) 

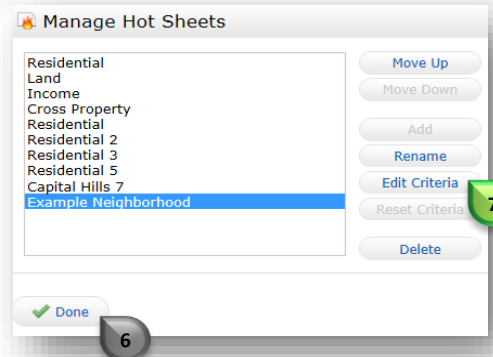

Type the desired Hot Sheet Name in the **“Name”** field 

Click **“Save”** 

Your custom Hot Sheet name will appear on the Manage Hot Sheets list

Click **“Done”**  or **“Edit Criteria”** 

Note: Please see **“How to Customize Hot Sheet Criteria”**
